

Moving
energy
forward

We are CIS GAZ

a Romanian private complete integrated energy company,
founded in 1990.

For more than 30 years, CIS Gaz and our family of companies have been leaders in innovative pipeline construction and related energy services, while assuring a safe and healthy work environment for everyone.

We deliver integrated solutions and services in the energy sector at the highest standards of quality, according to the relevant certifications obtained in the field.

History in the making

1990

FOUNDING THE COMPANY

Ioan Calugar founds the General Company CIS GAZ LLC, one of the first companies with private capital established in Romania, in the field of construction assembly services for natural gas pipelines

1997

The company expands to more than 150 employees, thus becoming one of the top companies in the field of pipeline construction in Romania

2003

CIS GAZ LLC becomes CIS GAZ SA, a large corporation, and introduces the concept of Innovative Solutions for New Pipelines and Technologies in the Oil and Natural Gas Industry

2008

CIS GAZ becomes the exclusive distributor in Romania and Moldova of the products and services of the US company, TD Williamson

2010

CIS GAZ becomes the exclusive distributor in Romania and the Republic of Moldova of the CGH Group companies from Belgium and Polyflow (currently BAKER HUGHES) from the USA for Thermoflex RTP Pipes Technology

2011

CIS Gaz delivers first Relining project in Romania, pipelines with Thermoflex technology in Craiova, in Bradesti, for OMV Petrom

2018

- CIS GAZ delivers the first Relining project in Romania with PRIMUS LINE technology at Videle, for OMV Petrom
- CIS Gaz becomes exclusive distributions partner for PRIMUS LINE products and service, from Germany

2019

CIS GAZ finalizes the projects of the Mintia-Brad-Steii natural gas transmission pipeline, stage I section Mintia – Brad 12” 35km and the Craiova – Segarcea section of the natural gas transmission pipeline 20” 39km, in Romania, for Transgaz

2020

CIS GAZ finalizes the gas pipeline for the interconnection of national gas transmission systems of Romania and the Republic of Moldova, Iasi-Ungheni (2014) and Ungheni-Chisinau (lot 1, 2 and 5) 63km of 24” pipeline, entirely on the territory of the Republic of Moldova, for Vestmoldtransgaz

2022

CIS GAZ, finalizes the Onesti-Gheraesti-Letcani gas pipeline to ensure the transport capacities to the Republic of Moldova, with a length of 165 km, in Romania, for Transgaz.

2023

CIS GAZ finalizes the 4 undercrossings of the Danube river and Borce branch, for a total length of 5.5km of 20” and 28” pipeline, in Romania, for Conpet.

Providing solutions of every kind, from start to the end

EQUIPMENTS & SOLUTIONS

Licensed channel partner of:

- T.D. Williamson
- Baker Hughes
- Primus Line
- Cokebusters
- Armax Gaz

EPCC / PIPELINE CONSTRUCTION

- Gas and Crude Oil Injection and Collection Pipelines
- Gas Transmission and Distribution Pipelines
- Surface Technological Installations
- Gas Measuring and Control Stations
- Natural gas compression and conditioning stations

POWER AND GAS TRADING

- Solar power production
- Cogeneration power plant under development
- Gas supply to retail market
- Gas supply for industrial users
- Gas trading on Eastern European market

PIPELINE INTEGRITY

- Mechanical Cleaning and smart pig Pipeline Inspections
- Hot tapping and plugging technology
- Pipeline Relining with Thermoflex and Primus Line
- Interior coatings with epoxy resins
- Rehabilitation and relocation of pipelines

Your experts in pipeline construction

Designing, manufacturing, delivering and installing Oil & Gas infrastructure and facilities, as well as all of the process equipment used throughout the entire production chain, from well head to end user.
